We are so excited to be selling and stocking both the Wood and Gas version of Jotul's F370 & GF370. The Jøtul F 370 Concept was designed by the renowned Norwegian design company Hareide Design. The stoves have innovative shapes and details with exciting diverse materials. Large side windows give a fantastic view of the flames. The Jøtul F 370 Concept has received a number of prestigious design awards such as the German ”red dot design award: best of the best”, the Norwegian “Award for Design Excellence” and the US Vesta Award.
